Section 3. Enforcement. Enforcement of these covenants and restrictions shall be by an appropriate civil proceeding against any person or persons violating or attempting to violate any covenant or restriction, either to restrain violation or to recover damages, or both, and against the land to enforce any lien created by these covenants and restrictions; and failure by the Association or any Owner to enforce any covenant or restriction herein contained shall not be deemed a waiver of the right to do so thereafter.

ARTICLE FOUR: ARCHITECTURAL CONTROL

Section 1. Purposes. The Association desires to provide for the preservation of the values in The Carolina Club Subdivision with respect to any Dwelling Unit to be constructed on any Lot constituting a portion of The Carolina Club Subdivision, and to that end, will establish an Architectural Control Committee in order to provide, enforce and maintain certain standards as to harmony of exterior design and location of the improvements on the Lot in relation to surrounding structures, natural features and topography.

Section 2. Architectural Control. Unless expressly authorized in writing by the Architectural Control Committee (the "Committee"), no Dwelling Unit, fence, wall, driveway, patio, building, or other structure or improvement whatsoever may be constructed, nor any exterior addition or alteration to any Dwelling Unit, fence, wall, driveway, patio, building or other structure or improvement be started, nor any clearing or site work shall be commenced, or maintained upon any Lot in The Carolina Club Subdivision, until plans and specifications thereof showing the shape, dimensions, materials, basic exterior finishes and colors, location on site, driveway, parking, decorative landscape planting, floor plans and elevations therefore (all of which is hereinafter referred to collectively as the "Plans"), shall have been submitted in duplicate to, and approved in writing, as to harmony of external design and location in relation to any surrounding structures, natural features and topography, by the Committee. The Committee shall have the right to refuse to approve any such Plans, which are not suitable or desirable in the opinion of the Committee for any reason, including purely aesthetic reasons. In no event will the Committee approve any Plans in which the Dwelling Unit at the highest point on its roof exceeds forty (40) feet in height measured from the finished grade or original grade, whichever grade is lower. The Committee, in the exercise of its discretion, shall not approve the location of a Dwelling Unit or garage on any Lot intended for use as a site for a single family detached dwelling within twenty-five (25) feet of the front line of such Lot, within fifteen (15) feet of the side lines of such Lot, and within twenty-five (25) feet of the rear line of such Lot. For purposes of this Section 2, a single family detached dwelling does not include a patio home or zero lot line home. Within these setbacks, the Committee shall have authority to determine the appropriated building site and location of the Dwelling Unit on each and every Lot.

Anything herein to the contrary notwithstanding, the Committee or Association unilaterally, may vary the building setback lines recited herein, so long as such variance does not cause the revised setback requirement to be less than that set by Currituck County at that time. Any such variance shall be evidenced by a certificate of variance or compliance signed by an officer of the Association, in recordable form and filed in the Office of the Register of Deeds of Currituck County.

Section 3. Architectural Control Committee.

(a) Membership. The Committee shall be composed of a minimum of three (3) persons who are owners in the Carolina Club and are appointed by the Association. The Committee may designate a representative to act for it. In the event of death, resignation, or removal by the Association of any member of the Committee, the Association shall have full authority to designate a successor. Unless otherwise approved by the Association, neither the members of the Committee nor its designated representative shall be entitled to any compensation for services performed pursuant to this covenant. The Associations' Board of Directors shall keep, or cause to be kept, a list of the names and addresses of the persons who form the Committee and a list of the names and addresses of any designated representative of the Committee, and such a list shall be available to any Owner. When vacancies on The Architectural Control Committee occur, the Committee and the Board of Directors shall work in cooperation to appoint new members from among interested Owners.

(b) Procedure. At least forty-five (45) days prior to the commencement of any construction, the Plans shall be submitted to the Committee. The Owner shall include with the name of the contractor, a statement as to the classification of the contractor's license held by such contractor and the address and telephone number of the contractor.

Approval shall be subject to such regulations, and architectural standards as may from time to time be promulgated by the Committee. Within thirty (30) days after receipt of the Plans and all other required information, the Committee shall notify the Owner of the Lot or Dwelling Unit in writing as to whether the Plans and the contractor have been approved. Unless a response is given by the Committee within thirty (30) days, the Plans and/or contractor shall be deemed approved. The response of the Committee may be an approval, a denial, an approval with conditions, or a request for additional information. A request for additional information shall be deemed a determination that the information submitted was inadequate, and the thirty (30) day time period for further Committee response shall only commence upon receipt of the requested additional information. If approval with conditions is granted, and construction then begins, the conditions shall be deemed accepted by the Owner of the Lot or Dwelling Unit and the conditions imposed shall become fully a part of the approved Plans.

The Committee, may also from time to time require of any contractor a cash or insurance performance bond to guarantee final site cleanup and/or extraordinary road repairs necessitated by the actions of the contractor and his workers and subcontractors during the construction of any improvements on The Carolina Club Subdivision.

Any Owner of any Lot or Dwelling Unit disagreeing with the finding of the Committee may appeal the decision, giving written notice of appeal to the Committee within fifteen (15) days following receipt of notice of denial. The Owner of the Lot or Dwelling Unit or his agent, may present information challenging the findings of the Committee. After review and consideration of the information, the Committee will notify the Owner of its decision. A thirty (30) day time period for Committee response shall commence upon the receipt or presentation of information challenging the findings of the Committee. Should the Owner disagree with the final determination of the Committee, appeal may be made to the Board of Directors within 15 days. The decision of the Board shall be final.

All notices required to be given herein shall be given in writing, hand-delivered or mailed postage prepaid, certified or registered mail, return receipt requested or deposited with an overnight courier

(such as, but not limited to Federal Express), and the Committee shall be obliged to specify the particular grounds upon which denial of any application is founded. One set of Plans denoted as approved (or approved with specified conditions) shall be retained by the Committee and the other one shall be returned to the applicant.

The subordination shall not relieve any Lot(s) or Dwelling Unit(s) from liability for any assessments now or hereafter due and payable, but the lien thereby created shall be secondary and subordinate to any first mortgage or deed of trust as if said lien were a second mortgage, irrespective of when such first mortgage or deed of trust was executed and recorded.

However, the entire Lot shall be subject to such easement until the current Lot owner has an approved home construction plan pursuant to Article Five and said home has commenced construction. Such maintenance and landscaping shall include the planting of grass, watering, application of fertilizer, mowing, and the removal of underbrush, stumps, trash or debris, and trees of less than (3) inches in diameter at a level of four (4) feet above ground level. Every Owner of every Lot or Dwelling Unit, by acceptance of delivery of a deed to the Lot or Dwelling Unit assumes all risks associated with errant golf balls, and each such Owner agrees and covenants not to make any claim or institute any action whatsoever against the Association, the golf course designer, the Golf Club operator or any other party relating to the design and utilization of the golf course or to any errant golf ball, any damages caused thereby, or for negligent design of the golf course or the sites of the Lot or Dwelling Unit.

All Owners are hereby notified and fully understand, acknowledge and agree that violation of this covenant shall cause immediate and irreparable harm to Golf Club and its golf course and related facilities for which there is no adequate remedy at law and that the Golf Club, its successors and assigns may by court order enjoin any such violation without further notice to Owner and require Owner to restore at Owner's sole cost and expense any vegetation, trees, landscaping, irrigation, drainage, grade or slope removed, disturbed or altered.

Section 4. Phase 3, Lots 103 through 124.
